YOUR HELPFUL GUIDE TO MOTOR
VEHICLE Q & A

Off-Highway Vehicle Decal Probation Period Ends

Many of you know about the new Off Highway Vehicle (OHV) decals that are required to be on your ATV's. For those of you that don't know, the new OHV decals are required for vehicles 1800lbs or less that are ridden off of improved roads and highways.

The law went into effect on January 1st 2009, however; law enforcement has given a six month grace period for enforcement and beginning July 1, 2009, will be issuing citations.

Hearsay is that the fines are estimated to be around \$170.

Please avoid being fined by coming in to see us and getting your OHV decals **ASAP!!!**

For information on safe and responsible use, visit Arizona Game and Fish Department at: www.azgfd.gov/ohv.

For information on the OHV Decal, titling, or registration, visit Motor Vehicle Division at: www.azdot.gov/mvd.

Increase GVW if needed.... authorities are cracking down

Gross Vehicle weight is not something that many people think about. However; many of you that drive larger trucks and service body vehicles should check what weight you have your truck registered at.

When registering your vehicle it should be **registered for the weight that it will weigh when fully loaded.**

Law enforcement has recently began to crack down on vehicles with incorrect weight registrations. They are using their portable scales to weigh trucks on local roads and highways where there are no permanent weigh stations.

If you're unsure, please give us a call and we can verify what you're vehicles are currently registered at.

Be sure to update your GVW!!!!

NEWS!!!

Is your address current in the MVD System?

We are finding that when many of our customers move they don't realize the importance of changing their address in the MVD system. Here at FooteWork we can quickly change your address in the MVD system free of charge!

By doing this you are able to ensure that you are receiving all documents pertaining to your registration and driving record. We are also able to order you a new driver's license with the updated address that will be delivered to you!

FOOTEWORK SAVES YOU MONEY on your OHV tags

We recently had a customer come in to do a title transfer on his vehicle. In the process of talking to him, he mentioned he went online to get his new Off-Highway Vehicle (OHV) tag. I understand that some things are cheaper when you go online, but in this case, this person was sad to hear that by getting his OHV tag online, he wasn't able to take advantage of the reduced registration he's entitled to.

Money saving features like this is something we will always tell you about whenever you use our services.

Besides, our happy, friendly, helpful faces are always nicer to see than your computer monitor!

Extended Hours Summer Hours

You asked and FooteWork has responded! FooteWork now has extended our office hours! We're now open from 7:30 am to 5:30 pm Monday through Friday!

Because your time is important, we want to help. We've been told that the MVD isn't able to take any new customers past 4:30pm each day, so our extended hours give you an extra hour to get your title work done.

These extended hours will be at both our Prescott office at 201 Grove Avenue and our Prescott Valley office at 6520 E. 2nd Street.

You're welcome! We're glad to help!

FEATURED FOOTWORK EMPLOYEES

This month we would like to welcome aboard three new members to our team!!! In our Prescott office we have Diane and Stephanie and in Prescott Valley we are joined by Vanessa.

APRIL FLY-IN & CAR SHOW

On April 18th, FooteWork put on a car show in conjunction with the Experimental Aircraft Association (EAA) at the Prescott Airport. This fun event was held at Legend Aviation's beautiful new FBO facility.

FooteWork was proud to hand out five awards for various classes of vehicles. It was such a huge success, we will be holding another event in the near future. Stay tuned for more details!

HELPFUL TIP—REMEMBER TO GET YOUR BOAT READY!

Now is the time to get your boat ready for the summer months. Of course, make sure the registration is current on the boat and trailer (we can help you with that if it's not).

Also, check your trailer tires for cracks or wear and ensure all of your trailer lights work.

Also, make sure your wheel bearings are properly lubricated.

Most importantly, make sure you have all the required safety equipment on your boat such as:

- * Personal flotation devices (PFDs or life jackets) for everyone on board.
- * Throw able flotation device (in the U.S., a Type IV PFD).
- * Navigation lights suitable for the type of boat operation visual distress signals (VSDs) which are effective both day and night .
- * Sound making devices including horns and bells.
- * Fire extinguisher.
